

pitch-deck-outline-10-slides

Pitch Deck Outline — Max 10 Slides (PDF)

One idea per slide. Readable text, diagrams/photos/evidence. Prepare for feasibility, safety, cost, limits, impact Q&A.

Slide	Title	Content + rubric weight
1	Title + team + category	AeroPulse-NG, Flight Planning & ATM, Team Lead + school, BOLTE wordmark, Expo name. (15% presentation)
2	Problem (specific, real)	Unjustified-radar aerodromes, low-altitude gaps, harmattan/diversion failure, cost of imports. Photo/diagram of gap. (25% clarity)
3	Why existing approaches fall short	PSR/SSR cost/complexity, ADS-B aggregators need internet, no offline STCA/weather fusion for Nigeria. (25% feasibility)
4	Solution overview	Air-gapped SDR+PC workstation, dual-window ATC/tactical, offline-first. Architecture block diagram. (25% clarity)
5	How it works (technical)	1090/ACARS ingest → DF17/CPR/Gillham decode → 6-state EKF → R*-tree STCA → weather fusion → defence overlays. Single decode path sim==real. (25% feasibility)
6	Demo / evidence	Synthetic-feed screenshots, 7700 @45s / <1km miss @70s /

Slide	Title	Content + rubric weight
		dropout @112s scenarios, 108 checks green, dual-window UI. Honest TRL 4–5. (15% readiness)
7	Safety, limits, risks, next steps	Synthesized FFT now → real RTL-SDR I/Q next; AWOS wiring; Comm-B; DB writers; multi-site. Safety + NCAA SI-metric notes. (25% feasibility + 15% readiness)
8	Impact	>99% capex cut, sovereign maintainability, training, civil + defence dual-use, scalability to secondary aerodromes. (20% impact)
9	Roadmap + cost	Now→Oct video→semi→finals; field-trial HW; cost table (SDR ~\$150 + PC). Realistic milestones. (15% readiness)
10	Ask + contact	What we need (mentorship, test site, components), Team Lead contact, AI-use disclosure, references. (15% presentation)

Appendix (not counted — do NOT exceed 10 in submitted PDF; keep as speaker notes): standards map, detailed test log, risk table, bill of materials.

Design: dark background + blue accent per BOLTE brand, min 24pt body, export PDF < [check NASS portal limit].
